

Quality Policy

Boom Logistics will strive to achieve the highest level of customer satisfaction through the provision of excellence in lifting solutions.

The management and staff of Boom Logistics are committed to providing a safe and reliable service through continuous improvement in quality conforming to the requirements of ISO 9001:2000.

To achieve the above, an Integrated Management System is in place and maintained to meet relevant International and Australian Standards. These include but are not limited to:

- o ISO 9001:2000 Quality Management Systems
- o AS 4360 : 2001 Risk Management Systems

Boom Logistics will ensure, through induction and training of each employee, the implementation of the Company's Quality Policy.

Boom Logistics will ensure consultation and cooperation between management and staff with direct responsibility for the implementation and application of the Company's Quality Policy.

Boom Logistics are committed to continuous improvement of its quality system, to ensure the highest level of customer service is consistently achieved. Employees are actively encouraged to identify opportunities to enhance service delivery.
