Press Release

Standard & Poor's Announces September Quarterly Rebalance to the S&P/ASX Indices

Sydney, Sep. 4, 2009 – Standard & Poor's Index Services, the leading provider of equity indices in Australia, announced today that the following constituent additions and deletions will take place in the S&P/ASX indices, effective from the close of trade on Sep. 18, 2009.

Both the S&P/ASX 200 and the S&P/ASX 300, together with component indices, are reviewed as part of the September quarterly rebalance. The quarterly rebalance considers the aggregate market capitalisation and liquidity of stocks for the preceding 6-months of 2009 as a basis for eligibility.

The September quarterly rebalance saw the top end of the S&P/ASX index suite experience a lower level of turnover relative to the June and March rebalances of 2009. Companies from the Energy and Materials Sectors featured prominently among index inclusions in the semi annual rebalance of the S&P/ASX 300; removals from this index were less concentrated however 25% of them were A-REIT's.
